PROFESSIONAL SUMMARY

Python Developer and AI Automation Engineer with internship experience at Datavalley Inc (LLM pipelines, 40% processing time reduction) and ApexPlanet Software Pvt Ltd (8+ web interfaces, 30% error reduction). AWS Cloud Foundations certified (2025), Deloitte Data Analytics certified via Forage (2025); B.Tech Computer Science and Engineering, Sri Padmavati Mahila Visvavidyalayam, CGPA 8.9, graduating May 2027.

TECHNICAL SKILLS

Languages: Python (OOP, Automation, File I/O, Exception Handling), JavaScript (ES6+), HTML5, CSS3, SQL
AI and ML: LangChain, OpenAI API, Generative AI, Prompt Engineering, LLM Applications, Scikit-Learn, NumPy, Pandas, Matplotlib, Seaborn
Web and API: FastAPI, REST APIs, Responsive Web Design, Form Validation, DOM Manipulation, JSON, Agile, Scrum
Cloud and DevOps: AWS (EC2, S3, IAM, Cloud Foundations), Docker, CI/CD Pipelines, Git, GitHub, VS Code, Linux
Data Analytics: Data Cleaning, Exploratory Data Analysis, Data Visualisation, Excel, Tableau

WORK EXPERIENCE

AI Automation Engineer Intern, Datavalley Inc, Remote | May 2026 to Present

Python, LangChain, OpenAI API, Generative AI, Prompt Engineering, FastAPI

- Engineered 5+ production LLM workflows using LangChain and OpenAI API; manual task completion time dropped 40% across 3 departments within 4 weeks of scope expansion.
- Eliminated 6+ weekly staff hours by automating decision logic for 3+ product use cases via prompt engineering, removing all manual review steps from the workflow.
- Architected multi-step AI agent systems that saved 10+ weekly repetitive work hours; delivered pipeline metrics and architecture diagrams to senior stakeholders for executive sign-off.
- Authored technical specs and onboarding guides adopted by 5+ teammates, halving ramp-up time and standardizing AI process reproducibility organization-wide.

Web Development Intern, ApexPlanet Software Pvt Ltd, Remote | December 2025 to March 2026

HTML5, CSS3, JavaScript (ES6+), DOM Manipulation, Git, REST APIs

- Shipped 8+ responsive interfaces in HTML5, CSS3, and JavaScript (ES6+), achieving 100% cross-device compatibility across mobile, tablet, and desktop; awarded intern completion certificate for quality output.
- Slashed user input errors by 30% through client-side form validation and interactive UI components, strengthening downstream data quality for backend processing.
- Collaborated within a 4-developer Agile team on Git/GitHub, enforcing branch naming standards and leading peer code reviews to sustain sprint velocity.
- Tracked feature milestones in daily standups and presented sprint-end reports to the project lead; zero missed deadlines across all 3 sprint cycles.

PROJECTS

AI-Powered Automation System | Python, LangChain, OpenAI API, Generative AI

- Conceptualized and launched an end-to-end workflow automation platform; manual processing time fell 60% across 5+ education-domain task categories.
- Integrated LLM decision logic with task-routing for data classification and response generation, boosting operational efficiency by 35%.
- Published system architecture diagrams and a setup guide that empowered peers to independently deploy and extend the framework.

Photo Hosting Web Application | HTML5, CSS3, JavaScript, REST API

- Deployed a responsive photo hosting platform for 100+ media assets with upload, gallery, and preview features; page load times stayed under 2 seconds.
- Accelerated perceived load speed by 25% through UI/UX performance tuning; confirmed uniform rendering across Chrome, Firefox, and Safari.
- Composed user-facing setup guides that enabled team members to onboard and extend the project without additional support.

EDUCATION

Bachelor of Technology in Computer Science and Engineering | August 2023 to May 2027

Sri Padmavati Mahila Visvavidyalayam, Andhra Pradesh | CGPA: 8.9

Coursework: Data Structures and Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming, Software Engineering

CERTIFICATIONS AND TRAINING

- AWS Cloud Foundations, Cloud Jumpstart Program, Amazon Web Services, 2025
- Web Development Internship Certificate, ApexPlanet Software Pvt Ltd, March 2026
- Data Analytics Job Simulation, Deloitte Australia via Forage, 2025: completed data cleaning, exploratory data analysis, and stakeholder insight presentations using Excel and Tableau
